THE DAY IN REVIEW

The desk ran 30 stock decisions today with a cautiously mixed posture. Top conviction remains on VZ (8/10 SELL) and ABBV, CI, META, and TMUS (all 7/10), with buys initiated on ABBV, CI, and META offset by sells on TMUS and a strong conviction short on VZ. The options book logged 14 picks heavily weighted toward bullish debit call spreads across semiconductors and industrials—CAT, GE, and KLAC at 8/10 conviction—balanced by selective bearish puts on ADBE and MCD. We're carrying 37 open positions with scattered avoidance signals on ADBE and NVDA options marked Do Not Trade.

Across the four fund accounts, total net liquidity stands at \$401K. The Aggressive Fund leads performance at +2.9% with \$6.3K unrealized gains on eight positions. Conservative and Balanced funds both posted flat to slightly negative days at -0.4%, while the Options Book sits at -0.9% with a \$1.1K unrealized loss on twelve spread positions. Overall book equity is healthy; we're positioned long duration in tech and industrials while taking defensive positions in telecom and healthcare.
