THE DAY IN REVIEW

The desk maintains a balanced yet selective posture with thirteen stock decisions centered on healthcare and tech conviction. We're selling VZ and TMUS on strength despite solid fundamentals, while building bullish positions in ABBV, CI, and META. The options book is predominantly constructive, with ten active spread strategies across semiconductors, industrials, and consumer names. CAT, GE, and KLAC lead the bullish call spreads on strong conviction, while ADBE and MCD carry bearish setups. We've flagged several high-vol NVDA and ORCL weekly options as untradeable.

Fund performance is solid across the board. The Aggressive Fund leads at +4.3% with \$104K equity and \$7.7K unrealized gains across eight positions, while Balanced follows at +1.3% on modest size. Conservative trails slightly at +0.2% but remains steady. The Options Book sits flat at -0.0% with \$99,981 equity and a minor \$158 unrealized loss across twelve positions. Total net liquidity stands at \$405,821 with thirty-seven open positions, positioning us well for the week ahead.

COF analyzed — no edge (chart HOLD)

GE debit call spread bullish · 8/10 · high

MRVL debit call spread bullish · 6/10 · watch

All four targets up with nearest cluster \$300-310; Jul-31 280/300 defines risk on a diverged-magnitude read with earnings (Aug 27) outside DTE — no crush risk.

MU debit call spread bullish · 7/10 · medium
